LunaJets Presents its New and Radical D.R.R. Loyalty Programme

LunaJets has rewritten the rules when it comes to private aviation loyalty programmes. The first particularity of their programme is that as soon as the new App is downloaded, the user automatically receives a €1,000 cash credit toward their second flight.

Different Levels of Cash Credits

Beyond the cash credit received upon booking a first flight, the Geneva-based company will also reward passengers who renew their LunaJets experience. Those who keep flying will benefit from another €1,000 off on their 5th flight, €2,000 off their 10th flight and €3,000 off on their 15th flight.

In addition, LunaJets clients who recommend a new client will receive a €1,000 cash rebate on their future flight(s) for every referral. There is no limit to the number of referrals and the cash credits that can be accumulated, resulting in a potential free flight with no minimum on the price tag of the flight.

LunaJets' Director of Business Development & Sales, Alain Leboursier, states "Our D.R.R. Loyalty Programme is as straightforward as they come: 'Download', 'Renew' and 'Recommend' to get cash back, and cumulate all our offers for even more cash back."
